

DEODORANT SDS

SECTION 1: Identification of the substance/mixture and of the company/undertaking

Product Name on Label: PROFESSIONALS CHOICE DEODORIZER

Other Identification: PINA COLADA, SMOKE AWAY, FRESH AIR, APPLE, CITRUS

Use of the substance/mixture: VEHICLE AIR FRESHENER AND CLOTH DEODORIZER

Company name : MOORE OIL COMPANY
4033 WEST CUSTER AVE
MILWAUKEE, WI 53209 (414) 462-3200

Emergency number: (800) 424-9300 - CHEMTREC

SECTION 2: Hazards identification

Classification of the substance or mixture: N/A

Label elements: NONE

Other hazards: If eye or skin irritation occurs get medical advice/attention

Unknown acute toxicity (GHS-US): N/A

SECTION 3: Composition/information on ingredients

Amounts specified are typical and do not represent a specification. Remaining components are proprietary, non-hazardous, and/or present at amounts below reportable limits.

Mixture

NAME	PRODUCT IDENTIFIER	% BY WT	GHS – US CLASSIFICATION
	NONE ABOVE REPORTABLE PERCENTAGE		

SECTION 4: First aid measures

Eye: Immediately flush with water. If any irritation or discomfort occurs, consult physician

Skin: No first aid should be needed. Thoroughly wash the affected area as a precaution.

Inhalation: Inhalation of any liquid should be considered potentially dangerous, consult a physician.

Oral: No first aid should be needed for oral contact. If product is swallowed, consult physician.

Comments: Treat symptomatically.

SECTION 5: Fire-fighting measures

Extinguishing Media: On large fires use dry chemical, foam or water spray. On small fires use carbon dioxide (CO₂), dry chemical or water spray. Water can be used to cool fire exposed containers.

Fire Fighting Measures: Self-contained breathing apparatus and protective clothing should be worn in fighting large fires involving chemicals. Determine the need to evacuate or isolate the area according to your local emergency plan. Use water spray to keep fire exposed containers cool.

Unusual Fire Hazards: None.

DEODORANT SDS

Hazardous Decomposition Products: Thermal breakdown of this product during fire or very high heat conditions may evolve the following hazardous decomposition products: Carbon oxides and traces of incompletely burned carbon compounds, Silicon dioxide, Formaldehyde, Metal oxides.

SECTION 6: Accidental release measures

For large spills, provide diking or other appropriate containment to keep material from spreading. If diked material can be pumped, store recovered material in appropriate container. Clean up remaining materials from spill with suitable absorbent. Clean area as appropriate since spilled materials, even in small quantities, may present a slip hazard. Local, state and federal laws and regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which federal, state and local laws and regulations are applicable.

SECTION 7: Handling and storage

Use with adequate ventilation. Avoid eye contact.
Use reasonable care and store away from oxidizing materials.

SECTION 8: Exposure controls/personal protection

Engineering Controls
Local Ventilation: None should be needed.
General Ventilation: Recommended.
Personal Protective Equipment for Routine Handling
Eyes: Use proper protection - safety glasses as a minimum.
Skin: Washing at mealtime and end of shift is adequate.
Suitable Gloves: No special protection needed.
Inhalation: No respiratory protection should be needed.
Suitable Respirator: None should be needed.
Precautionary Measures: Avoid eye contact. Use reasonable care.
Comments: When heated to temperatures above 150 degrees C in the presence of air, product can form formaldehyde vapors. Formaldehyde is a potential cancer hazard, a known skin and respiratory sensitizer, and an irritant to the eyes, nose, throat, skin, and digestive system.
Safe handling conditions may be maintained by keeping vapor OSHA Permissible Exposure Limit for Formaldehyde.

SECTION 9: Physical and chemical properties

Flash Point None	Auto Ignition Not Determined
Upper Flammability Limit Not Determined	Lower Flammability Limit Not Determined
Physical State Liquid Color White	pH 6.8 Specific Gravity 0.98
Vapor Density (Air=1) Not Determined	Melting Point °F 28°F
Vapor Press Not Determined	Viscosity 2 cSt
Odor VARIES	Water Solubility Dispersible
VOC Content <1%	

SECTION 10: Stability and reactivity

Stability – Stable
Hazardous Polymerization – Not Expected to Occur

DEODORANT SDS

Conditions to Avoid – Oxidizing materials can cause a reaction when heated to temperatures above 150 degrees C in the presence of air, product can form formaldehyde vapors.
Safe handling conditions may be maintained by keeping vapor OSHA Permissible Exposure Limit for formaldehyde.

SECTION 11: Toxicological information

Acute toxicity
Acute oral toxicity – LD50, Rat, > 5,000 mg/kg
Acute dermal toxicity – LD50, Rabbit, > 5,000 mg/kg
Acute inhalation toxicity – Product test data not available.
Skin corrosion/irritation – slight irritation
Serious eye damage/eye irritation – slight irritation
Sensitization – Does not cause skin sensitization

SECTION 12: Ecological information

Eco-toxicity (aquatic and terrestrial, where available): N/A
Persistence and degradability: N/A
Bio-accumulative potential: N/A
Mobility in soil: N/A
Other adverse effects (such as hazardous to the ozone layer): N/A

SECTION 13: Disposal considerations

NOT CONSIDERED HAZARDOUS MATERIAL.
Do not reuse empty containers. Consumer may discard empty container in trash, or recycle where facilities exist.

SECTION 14: Transport information

UN number: N/A
UN proper shipping name: NONE
Transport hazard class(es): N/A
Packing group, if applicable: N/A
Environmental hazards (e.g., Marine pollutant (Yes/No)): NO
Transport in bulk (according to Annex II of MARPOL 73/78 and the IBC Code): N/A
Special precautions which a user needs to be aware of, or needs to comply with, in connection with transport or conveyance either within or outside their premises: NONE

SECTION 15: Regulatory information

OSHA Hazards : None
EPCRA - Emergency Planning and Community Right-to-Know
CERCLA Reportable Quantity - This material does not contain any components with a CERCLA RQ.
SARA 304 Extremely Hazardous Substances Reportable Quantity
This material does not contain any components with a section 304 EHS RQ.
SARA 311/312 Hazards : No
SARA 302: No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.
SARA 313: **SARA 313**: This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section

DEODORANT SDS

313.

California Prop. 65: This product does not contain any chemicals known to the State of California to Cause cancer, birth, or any other reproductive defects.

Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List - Not Regulated

Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130) - Not Regulated

Safe Drinking Water Act - Not Regulated

SECTION 16: Other information

The information in this Safety Sheet was obtained from sources which we believe are reliable. HOWEVER, THE INFORMATION IS PROVIDED WITHOUT ANY WARRANTY, EXPRESS OR IMPLIED, REGARDING ITS CORRECTNESS. The conditions or methods of handling, storage, use and disposal of the product are beyond our control and may be beyond our knowledge. FOR THIS AND OTHER REASONS, WE DO NOT ASSUME RESPONSIBILITY AND EXPRESSLY DISCLAIM LIABILITY FOR LOSS, DAMAGE OR EXPENSE ARISING OUT OF OR IN ANY WAY CONNECTED WITH THE HANDLING, STORAGE, USE OR DISPOSAL OF THE PRODUCT. This safety sheet was prepared and is to be used only for this product. If the product is used as a component in another product, this safety sheet information may not be applicable.
